

Hepatitis C

Bloody Serious Facts

St Vincent's Hospital Melbourne and Harm Reduction Victoria have partnered to provide interactive education workshops on hepatitis C. Join us as we delve into the transmission, diagnosis, impacts of living with this virus & most importantly, the CURE!

These workshops are delivered by a highly experienced harm reduction worker from Harm Reduction Victoria and the Victorian Viral Hepatitis Educator from St Vincent's Hospital. All workshops are suitable for people working in community, mental health, AOD, NSPs, nursing, midwifery, immunisation, corrections, public health or anyone who works with people who are at risk of or affected by hepatitis C.

Risks

Watch a practical demonstration of the risks of transmission during the mixing up and injecting process

Diagnosis

Increase your understanding of transmission, testing and diagnosis of hepatitis C

Impacts

Gain an insight into living with hepatitis C and the treatment journey by a person with lived experience

Cure

Learn about the anti-viral medications that's changing people's lives
